Who We Are

Background

St John Home Health is a homehealth care agency owned , managed and operated by nurses ,first responders and a US Army veteran. The agency was founded in honor of a brother , a colleague, and a friend who served during the Covid pandemic but did not survive. We intend to provide you with quality selfless care to emulate, honor and remember " John" for being a good and caring nurse to his patients, responsive to their needs and concern.

Our goal is to provide skilled services to seniors and veterans in the comforts of their home keeping them healthy and safe.

We value the trust and confidence of our clients who recommend us to their friends and family.

We are committed to keep our patients healthy and safe to enhance their quality of life. We provide skilled nursing, physical therapy, occupational therapy, speech therapy, social workers and home health aides to keep you healthy and safe. We have dedicated our services to benefit the Las Vegas and Nevada senior community.

St John Home Health

**SAFETY BEGINS AT HOME.
ENHANCING YOUR QUALITY OF LIFE.**

Products & Services

Skilled Nursing Services

Nurses combine the science of nursing with the art of caring. Nurses are qualified but not restricted to provide the following services:

- Injections
- IV fluid and antibiotic therapy
- Parenteral nutrition
- Wound care
- Foley care
- Assessment teaching and reassurance
- Post surgical care
- Care for chronic medical conditions
- Ostomy care and instructions
- Medication supervision

Home Health Aide Services

Certified aides available to patients for assistance with personal care, any hygiene needs, light homemaking services as well as safety and infection control

Occupational Therapy

Assisting patients regain skills necessary for self care and activities of daily living with the ultimate goal of returning to prior level of function.

Which include but not limited to:

- Muscle reeducation
- Perceptual motor training and fine motor coordination
- Sensory treatment

Products & Services

Physical Therapy

Care provided by registered physical therapists with the aim to ease pain and restore loss of function, with a focus on range of motion and strengthening through therapeutic exercise. Which include:

- Assessment and reassessment
- Therapeutic exercise
- Gait training
- Patient/caregiver teaching
- Monitoring safety and infection control.

Speech Language Pathologist

Assist patients with speech/language disorders, which may have been impaired following illness or accident, regain communication skills or learn alternative means of expression to relay effectively relay their needs and feelings.

Social Services

Provide patient and family with the support needed to cope with the personal and emotional impact of illness or disability as well as locate financial and community resources.

Choose Us

More about our services

Veteran and first responder owned and operated - St. John Home Health strives to provide world-class and holistic care focused on producing positive outcomes for patients and their families. We endeavor to treat patients with compassion and care befitting our own loved ones. At St. John Home Health, our success lies in your triumphs, big or small. As medical professionals, we understand that healing begins and ends at home; it would be our greatest privilege to have you welcome us into yours.

Let us be your partners in your journey towards recovery – together we will weather the trials and celebrate the wins.
